

HOSPITAL BED CASTER

LOCKS SWIVEL AND WHEEL

OU-BC65B-XSR

OU-BC5-XSR

FEATURES

Our brake and swivel locking bed caster is the first North American design of this type. Designed with a cam action locking mechanism, the lever easily engages and disengages with the touch of a toe. As well as offering easy access, the lever design keeps it within the swivel radius of the caster, eliminating any interference. The assembly is available with nickel chrome finish (BC5) or zinc finish (BC45) and equipped with our non-marking Super Roll neoprene wheel complete with ball bearings.

OU125-BC5B2-XSR

KEYWAY SOCKETS AND STEM

Prevents stem from turning inside socket. For use with hospital bed total lock brakes.

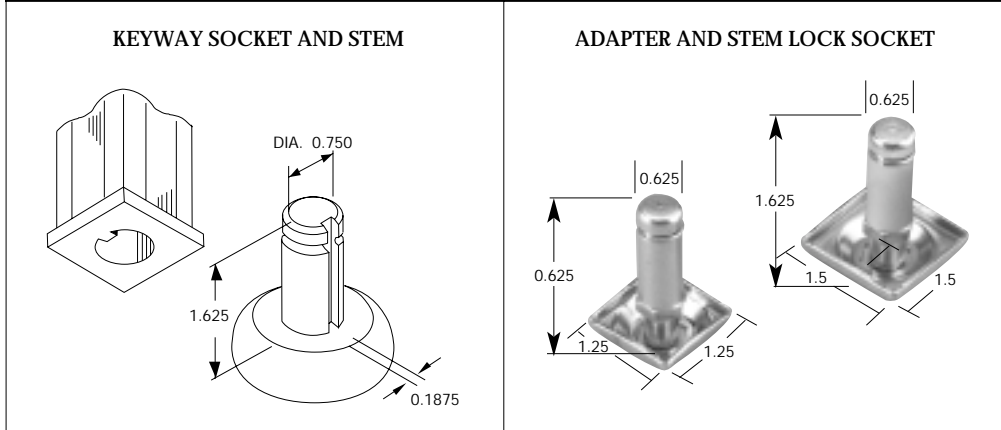

- CSK 125 - Fits inside 1-1/4"  
14 Gauge square tubing
